Duke of Brabant to Marry Italian Princess, Is Report

Engagement of King Albert's Son to Daughter of Italy's Ruler Rumored.

BRUSSELS, Dec. 27 (Associated Press) -Reports of the engagement of the Duke of Brabant, eldest son of King of the Belgians, to Princess Folanda, eldest daughter of King Victor Emmanuel of Italy, have gained considerable circulation. Ignorance of their reported engagement was professed today in royal circles, but other persons prominent in Belgian society expressed belief that the report was not without foundation.

An alliance such as suggested in the Brussels dispatch would not be without its political significance as drawing together the Catholic royal families of France's two neighbors.

The Duke of Brabant, who is 20 years old, served with distinction in the Belgian army during the war and was awarded the Croix de Guerre and the Grand Cross of the Legion of Honor by the French Government. He accompanied his father and mother on a tour of the United States in 1919. He is also known as Prince Leopold In 1920 traveling incognito he made a tour of a number of South American countries. This is not the first time that Princess Yolanda was reported engaged to gaged. As early as 1916 there were persistent reports of her engagement to the Prince of Wales, and the report caused widespread discussion, particularly in Rome. The report was finally officially denied from the Italian Embassy at Paris.

In 1919, when King Ferdinand of Rumanla was reported to have been dissatisfied with the morganatic marriage of Crown Prince Charles, the Italian Princess was much talked of as Prince Charles's possible fiances.

Again in January of this year Princess Yolanda has been reported enArchduke Ferdinand of Austria, but the report was quickly denied officially in Rome.

VERA CRUZ, Mexico. Dec. 27 (Associated Press).—Dr. Howard B. Cross of the Rockefeller Institute died here this morning a victim of yellow fever.

Dr. Cross arrived at Vera Cruz early this month to open a laboratory for study of yellow fever and marsh fever which the Rockefeller institute is establishing here. Tweive days ago he went to Tuxtepec, center of the yellow fever district. After spending two days there inspecting sanitary conditions he contracted the disease and was immediately brought here, where futile efforts were made to save his life. The funeral will take place to-morrow, attended by the medical corps and representatives of the authorities.

Dr. Cross is the second American physician to die here of yellow fever within a year, the first being Dr. Haedrick, attached to the American Consultate.
